

# Michael DeGori

## Web Developer

I'm a web developer engaged in freelance projects with a passion for new and emerging technologies. After attending the University of Nevada, I created and operated a handful of businesses in markets ranging from finance to transportation to hospitality. Always looking for new challenges, I decided to pursue my lifelong love of technology. I taught myself Python and later decided to join Ironhack, learning the ins and outs of web development and graduating top of my class.

HTML

Git

GitHub

Photoshop

Illustrator

Final Cut Pro

## PERSONAL PROJECTS

### Portfolio Website

- A website created to house my relevant work-related projects and deepen my skills around front-end web development
- Tech: JavaScript, React.js, HTML, CSS, Photoshop
- Link: [MichaelDeGori.netlify.app](https://MichaelDeGori.netlify.app)

### Dino Platformer Game

- A JavaScript platformer game (akin to Mario) made utilizing Canvas
- No game engines or external libraries were used to create the physics or mechanics of this game
- Tech: JavaScript, Canvas, HTML, CSS
- Link: [the-ironhack-breakfast-club.github.io/dino-game](https://the-ironhack-breakfast-club.github.io/dino-game)

### Influencer Landing Page

- A sales-funnel landing page made in collaboration with our Ironhack cohort's extremely talented UX/UI student team
- Gained experience working with other teams to develop and see-through a cohesive product
- Tech: JavaScript, React.js, HTML, CSS
- Link: [ToningWithTeremanaTequila.netlify.app](https://ToningWithTeremanaTequila.netlify.app)

### Direct Property Booking Site (12/2020 - Present)

- A website designed to integrate with Airbnb and iCal calendars to show available booking dates of properties
- Allows user signup and login, property creation, reading and updating on database with valid user account
- Tech: JavaScript, React.js, HTML, CSS, SASS, Bootstrap, Node.js, Express, MongoDB, Mongoose, Photoshop
- Link: [SmokyMountainGetaways.netlify.app](https://SmokyMountainGetaways.netlify.app)
